## PROFESSIONAL EXPERIENCE

Quality Assurance Engineer – VOYATEK Groups, Lagos | 2024 – Present

• Designed and executed comprehensive test cases for functional, regression, and API testing.
• Validated business logic and backend workflows across multiple software modules.
• Identified, tracked, and managed defects through Azure Boards.
• Collaborated closely with developers and product managers to improve product quality.
• Participated in sprint planning, standups, and retrospectives within Agile environments.
• Ensured software met user requirements and business expectations before release.

## KEY PROJECTS

GoPaddi Travel Platform Testing
• Tested trip collaboration and group planning modules.

• Validated bill splitting APIs among collaborators.
• Performed chat history deletion testing (today, yesterday, all-time).
• Conducted backend API verification using Postman.

Social Feed Testing
• Tested reposting, likes, and user messaging functionalities.
• Identified UI/UX inconsistencies and backend issues.
